

PRODUCT HIGHLIGHTS

AXIS-HT is designed to support and enhance:

- Production of Testosterone and other Androgens ("Male Sex Hormones")
- Muscle Gain
- Muscle Strength and Power
- Maintain Healthy Cholesterol Levels (Already within the normal range)
- Libido/Sexual Performance

PRODUCT SPECS

Use Classification: Male Sex Hormone Support

Product Category: Male Sex Hormone Support

Testosterone-Androgen Support

Flavor: NA

Size/Count: 120

Minimal Cycle Length: 6 weeks

Optimal Cycle Length: 12 weeks

Recommended Cycle Off Length: 4 weeks

Stack with: NITRIX, N.O.-XPLODE, CELLMASS, SYNTHA-6, THERMONEX, TRUE-MASS

PRODUCT CONSISTS OF:

Magnesium Aspartate: Zinc Monomethionine and Aspartate: Zinc and Magnesium Aspartate supplements are commonly used to support testosterone production as well as promote deep (REM) sleep.

Inositol Hexaphosphate (IP6): Inositol regulates cell growth and is a key component of cell-signaling pathways such as those involved in the production of testosterone and other androgens. IP6 occurs naturally in cereal grains and seeds. IP6 supports the immune system by enhancement of natural killer cell activity.

AXIS-HT 4-Phase Testosterone/Androgen Support Matrix: Each component of the matrix is active at different time frames. This provides the user with a sustained action.

TPS3™: TPS3™ is a 3-fraction extract of Tribulus terrestris. Tribulus is used to enhance or restore endogenous testosterone production. Tribulus is also used to support sexual performance and libido and increase aggression during workouts or athletic competition. The 3 fractions of Tribulus chosen for TPS3™ provide the entire range of potentially active Tribulus constituents. These include, but are not limited to: steroidal saponins (furostanol glycosides: protodioscin and protogracilin), spirostanol glycosides, and phytosterols (e.g., beta-sitosterol).

Safed Musli (Cholophytom Borovianum): Safed Musli has traditionally been used in Ayurvedic medicine as an aphrodisiac and to help increase libido.

GF5™ (Proteinaceous Avian Nucleus Extract): Popularized within Bulgarian weightlifting circles, GF5™ is used to enhance overall hormonal balance, alleviate and prevent overtraining syndrome, boost recovery, enhance the immune system, and protect against muscle loss. (Suggestion: The term avian might turn off some individuals due to the bird flu hype)

Eurycoma Longifolia: Eurycoma is used to increase testosterone levels, sexual performance, and libido. In a study performed at the Human Reproduction Specialist Center in Malaysia, an extract of Eurycoma was reported to increase testosterone levels. It also led to a 91% increase in libido and improvements in sexual performance.

Testofen™: Testofen™ is a Fenugreek extract standardized for 50% fenuside. It is intended to support endogenous testosterone/androgen production. Anecdotal reports suggest that Testofen™ produces marked improvements in libido. Animal studies on fenugreek report anti-obesity effects.

Coleus Forskohlii (standardized for 40% forskolin): Forskolin is a naturally occurring diterpenoid. In biochemical studies, it is used to stimulate an enzyme known as adenylate cyclase. This leads to an increase in the production of cyclic AMP (cAMP). cAMP plays a "second messenger" role in a number of cell-signaling pathways such as those involving the production of testosterone and other androgens.

AXIS-HT supports the following segments of the BSN Supplement Pyramid™: Hormone Support, Muscle Support. For more information, visit www.BSNonline.net.

Testofen™ is a trademark of Gencor Pacific Inc., USA.

SUPPLEMENT FACTS

Serving Size: 2 Tablets
Servings Per Container: 60

	Amount Per Serving	%DV*
Magnesium (magnesium aspartate)	150mg	38%
Zinc (monomethionine and aspartate)	10mg	67%
SiAR-P2™ (PATENT PENDING) ANDROGENIC-ANABOLIC TESTOSTERONE MATRIX	2238mg	**
Inositol Hexaphosphate		**
TPS3™ (3 Fraction Tribulus Terrestris composite yielding a precision ratio of Protodioscin and Saponin concentrations)		**
GF5™ (Proteinaceous Avian Nucleus Extract containing naturally occurring growth factors: IGF, FGF, NGF, EPF, GTCP)		**
Safed Musli		**
Eurycoma Longifolia		**
Coleus Forskohlii (40% Forskolin)		**

*Percent Daily Values are based on a 2,000 calorie diet.

** (DV) Daily Value Not Established

Other Ingredients: Microcrystalline Cellulose, Stearic Acid, Povidone, Hydroxypropyl Methyl Cellulose, & Polyethylene Glycol
